The weight of the vehicle will influence the level of CO2 emitted and as a result, vehicles with higher levels of specification and factory fit options may emit higher levels of CO2. However, vehicle tax is paid according to the weight and CO2 emissions of the standard vehicle, as published in this price list.

A weighbridge must be used to determine specific weights. Data valid for manual transmission unless specified.

Auto = Geartronic Automatic Transmission

The maximum power output figures are quoted in PS (Pferdestärke), which is the metric equivalent of brake horsepower.
