

REAR SEAT ENTERTAINMENT SYSTEM WITH DUAL MONITOR DVD PLAYERS

Advanced Dual-Screen Technology with Built-In Volvo Safety

Available for the XC90, 2005 and newer. Available for the S60, 2007-2008.

Available for the V70, XC70 and S80, 2007 and newer.

Connectivity to games, MP3 players, iPods and more

Dual 7-Inch Widescreen LCD Monitors with Adjustable Viewing Angles

The wide screen aspect ratio (16:9) monitors are the brightest and clearest on the market today and feature adjustable viewing angles for optimal viewing.

Two Integrated DVD Players

Each head restraint features a fully integrated bottom slot-loading DVD Player that makes inserting and changing DVDs easy while preventing small objects like coins and small toys from getting stuck in the DVD units.

Viewing Flexibility

Advanced dual-screen technology provides users the option of viewing DVDs, listening to music or playing games SIMULTANEOUSLY on both monitors or INDEPENDENTLY on each monitor.

Easy bottom slot loading

Connectivity

Plug your iPod, MP3 player, game system or other device directly into the RCA A/V Inputs available on each head restraint (additional cables or adapters may be needed).

Dual IR Wireless Stereo Headphones

Two infrared wireless stereo headphones are included and can be used for either display. The driver and front passenger can enjoy peace and quiet or choose their own listening pleasure through the car's audio system. To preserve battery life, the headphones automatically switch themselves off.

Audio Output

Listen to either Rear Seat Entertainment unit through the car's audio system. (For models earlier than 2009 an FM transmitter is used.)

Wireless Remote Controls

Two full-function remote controls operate either display.

Volvo Safety

This Rear Seat Entertainment System was designed with occupant safety in mind and is certified to have successfully passed Volvo's rigorous crash safety requirements.
