4. THE CONTRACT

4.1 Your contract with us regarding any Services that we provide to you (the “**Contract**”) comprises of (as applicable):

- (a) the “**Order Specification**” – which is the summary, receipt, invoice or similar document (as the case may be) provided by us for your order for a particular Service and that may include, without limitation, information on the content, price and subscription term for the specific Service including any changes to the order specification that is confirmed by us in writing and/or changes made in accordance with what is set out in these Terms;

In case of any inconsistency between the different documents forming the Contract, they shall prevail in the order set out above.

4.2 Some Services may also be subject to Third Party Terms as further set out in Section 14.

4.3 In order to use a Service, you must accept these Terms, and in some cases also accept Specific Terms, and any applicable Third Party Terms (as further set out in Section 14).

4.4 Before you can use a Service that requires payment, you will need to complete an online order process, confirm your order and pay for the Service.

4.5 A binding contract is entered into between you and us for use of the relevant Service either when (a) you start using the Service, or (b) we approve your order (we reserve the right to at our sole discretion reject your order), whichever comes first.

5. RIGHT OF WITHDRAWAL

5.1 If you are a private individual (a consumer and not acting in the capacity as a sole trader) and the Contract has been concluded online or outside our or our agents’ or retailers’ premises, you have the right to withdraw or cancel (hereafter jointly referred to as “right of withdrawal”, “right to withdraw” etc) from your Contract within 14 days after entering into your Contract without giving any reason (in accordance with *lag (2005:59) om distansavtal och avtal utanför affärslokal*). To exercise your right of withdrawal, you must inform us of your decision to withdraw by a clear statement. You can do this by sending your withdrawal statement by post to our address noted above or by e-mail as set out in Section 20. You can use the standard form provided [here](#) to exercise your withdrawal, although that is not required (please note that if the link provided herein is not working properly you can always find the template on the webpage of the Swedish Consumer Agency (Sw. *Konsumentverket*)). To meet the withdrawal deadline, it is sufficient for you to send your notification of exercising your right of withdrawal before the withdrawal period has expired.

5.2 If you decide to withdraw from the Contract as set out above, we will without undue delay reimburse you for any payments which we have received from you in relation to the Contract. If you have used the Service in question before you exercise your right of withdrawal, we may make a reasonable deduction from the reimbursement corresponding to your use of the Service. If you have chosen recurring payments as payment option under the Contract and such recurring payment will not cover the cost of the Service used, we will charge you for the remaining cost of such Service performed that is not covered by the payment you already have made to us.

5.3 We will make the reimbursement using the same means of payment as you used for the initial transaction. If we agree to refund you by other means, we reserve the right to withhold the repayment until we have received all reasonably requested information from you (such as bank details etc.) in order to proceed with the repayment. You will not incur any fees from us as a result of the reimbursement.

5.4 Nothing in the Contract will affect your statutory rights, whether in relation to your withdrawal right or otherwise.

6. PAYMENT AND PAYMENT TERMS

6.1 A Service can be offered to you at no cost or offered for a fee. The fee will be specified and presented when you sign up for the Service and also confirmed in your Order Specification. In case of recurring payments (including for Services provided on subscription), unless otherwise stated elsewhere in the Contract, the first payment is payable on the date the Contract starts and any subsequent payments are payable each month thereafter.

6.2 If the Service is subject to a fee, you are responsible to pay such fee through available payment options and on the due date in accordance with the payment terms specified for the Service.

6.3 You are also responsible for the payment of any taxes, such as VAT, related to the Service and we will adjust the Service fees to reflect any changes in relevant taxes including VAT.

6.4 Where the Service shall be paid for online (including through the Volvo Cars app), we will use a secure online payment system via a third party payment provider.

6.5 You expressly authorize our payment provider to charge applicable fees through the chosen payment method as well as taxes and other charges you incur and agree to the handling of the payment transaction and the details provided and any other information necessary for a payment transaction to be executed by the relevant third party (including but not limited to fraud prevention).

6.6 You are responsible for ensuring (a) that we (or our third party payment provider, as applicable) are provided with the correct information in order to execute the transaction, including any changes thereof, and (b) that the amount to be paid can be deducted from your account at the time of payment.

6.7 Where payments are made through recurring payments you can chose to cancel these recurring payments and pay the outstanding remaining part of the fee for the Service, please contact our Customer Relations Centre for support.

6.8 Where payment shall be made through an invoice the payment instructions and the due date of the invoice will be specified on the invoice. Please note that an invoice may contain the fees for more than one Service in case you have signed up for multiple Services that all have invoice as the payment option.

6.9 We have the right to use a third party for collection and/or legal actions against you for non-payment of the fees. We reserve the right to claim damages from you for reasonable costs and/or expenses that we may have in relation to such actions, including but not limited to costs of such third party and any legal and administration costs.

7. SUBSCRIPTION OF SERVICES

7.1 Some Services may be offered either through one-off purchase or through subscription, whereas some Services may be offered on a rolling subscription basis where the subscription will automatically be renewed, for instance on a monthly, quarterly or annual basis, and others for fixed periods.

7.2 The subscription will start on the date of the Contract unless otherwise set out in the Order Specification. If the subscription starts with a free trial, the trial will automatically transform into a paid subscription if you do not give us notice of cancellation before the end of the trial period.

7.3 For a fixed term subscription, you may be charged in advance for the entire subscription period or on a recurring monthly basis during the fixed term subscription period, this will be set out

in the Order Specification. A fixed term subscription will not automatically be renewed without your consent.

- 7.4 For subscriptions with no end date and monthly, quarterly or annual payment terms, you will be charged on a rolling basis in advance. You can give notice of cancellation at any time, in which case your subscription will end upon the expiration of the then current subscription period (e.g. monthly, quarterly or annually as applicable) and you will be able to continue to use the Service in question until such expiration. If no cancellation is made, the subscription will automatically renew for a new period.
- 7.5 Some Services will need to be activated in the car before you can start using them. The subscription for such Services will however start upon the date of the Contract, unless otherwise set out therein, regardless of whether the activation has been made in the car or not.
- 7.6 For a Service provided on subscription that required activation, you must deactivate the Service in the car by the end of the subscription term at the latest. If you do not deactivate a Service that has terminated, we reserve the right to charge a penalty fee (up to an amount equivalent to the fee paid for Service during the subscription term) until you have completed the deactivation.
- 7.7 All Services subscriptions follow the car and not you, so if you sell the car then the subscription is available only to the new owner. You must inform us that you no longer own the car and cancel any ongoing rolling subscriptions to avoid future payments. The Services will remain available in connection with the car until the end of the relevant subscription period.

8. HOW TO USE THE SERVICES

- 8.1 You may not use the Services:
 - (a) contrary to what is stipulated in the Contract, any Third Party Terms or any instructions provided by us; or

Our features complement safe driving practices and are not intended to enable or encourage distracted, aggressive, or otherwise unsafe or illegal driving. Ultimately, you are responsible for safe and lawful operation of the car at all times. Any warranty regarding the suitability, safety or possibility to use a Service is subject to our disclaimers, as set out in Section 16 or elsewhere in the Contract.
- 8.6 Some Services (such as but not limited to your Volvo ID) may require a password, in which case you must choose a password that is difficult for others to reveal. We may establish

requirements in respect of what is considered a sufficiently secure password. You are responsible for keeping your password secret and must not reveal it to anyone else. If you suspect that anyone else has gained unauthorised access to your password, you shall immediately change the password. If you suspect that anyone else has gained unauthorised access to any Services through your Volvo ID, please immediately contact us.

We will notify you at least 30 days in advance unless the change is (i) to your benefit, (ii) purely administrative in nature, or (iii) is directly imposed by law. You may be required to accept changed terms before continuing to use the Service or your continued use will be deemed as acceptance to the changes.
- 10.2 You are always entitled to stop using the Service and terminate the Contract in accordance with the termination requirements set out in Section 19 if you do not agree to changes to these Terms, Specific Terms and/or the Services. Notwithstanding Section 19, you will not be charged for terminating the agreement, except for the fee(s) for the period ending on the day on which the subscription is terminated
- 10.3 We may add or remove Services and functionalities or features in Services, discontinue, in whole or in part, providing or giving access to particular Services, as well as generally changing the Services or the access to keep the Services useful and up to date.

In such case, we will notify you at least two months in advance before the changes take effect for your Contract. Unless you inform us otherwise before the day on which the changes come into effect, we will assume that you accept the changes. If you inform us that you do not accept the changes, we may terminate the Contract upon the day the changes enter into effect. In such case, you will receive a refund of any

subscription fees that you have paid us in advance in relation to the period after the termination date.

SPECIFIC TERMS

FOR TIME LIMITED DATA CONNECTIVITY SUBSCRIPTION FOR DIGITAL SERVICES

If your Volvo car comes with time limited embedded connectivity to enable the use of the digital services package which is further described in your car/Order Specification, these Specific Terms and the Volvo Cars General Terms and Conditions for Services (the "**General Terms**") shall apply. In case of any inconsistency between these Specific Terms and the General Terms, these Specific Terms shall prevail.

Capitalized terms not otherwise defined herein shall have the meaning given to them in the General Terms.

The digital services are provided by Volvo Cars, regardless of whether you ordered the car directly through our digital channels or from a retailer.

Volvo Cars is not a provider of internet or telecommunication services.

INITIAL SUBSCRIPTION TERM

The initial subscription term for embedded connectivity to use the digital services, with the data usage limitations set out below, is set out in your car/Order Specification and included in the purchase price for your car. The subscription term is calculated from when the car is first sold as a new car and the subscription follows the car and not you. So if you sell the car (or return the car if you have a leasing contract), then the subscription will transfer over to the new owner who will take over the remaining time of the ongoing subscription term.

PROLONGATION AND RENEWAL OF SUBSCRIPTION

After the initial subscription term has ended, you will be offered continue to purchase connectivity data to enable the continued usage of the digital services package for a fee.

If you choose not to renew the connectivity subscription in your car, the embedded connectivity for the digital services package will be turned off, which will affect your user experience. You can continue to use Google Maps, Google Assistant and Google Play with your own data plan, such as via Bluetooth or WiFi hotspot tethering, but the user experience may not be the same. Further, certain apps in Google Play may be restricted and might require a renewal of the connectivity subscription in order to continue to fully function

Once the connectivity is turned off, this may also affect the functionality of other car applications and third party services and applications. You can however continue to use smartphone integration in the car, FM radio and connect your mobile phone via Bluetooth to stream audio. Other Volvo Car services will continue to run, if you do not renew the connectivity subscription, such as over-the-air software updates, connected safety features, emergency call, breakdown call services etc.

DATA USAGE

Please note that we apply a fair data usage policy to the connectivity subscription in terms of data consumption, and we reserve the right to suspend or limit your access to or use of your connectivity if your data usage is very high and disproportionate in relation to other users. The legitimate use of the digital services packages will not breach our fair usage policy, but you must not use the connectivity in an excessive or unreasonable manner. For more information, please see your car's Owner's Manual.

SPECIFIC TERMS

FOR SMART CHARGING

These Specific Terms and the Volvo Cars General Terms and Conditions for Services (the "**General Terms**") shall apply for the smart charging service ("**Smart Charging**") provided through the Volvo Cars app. In case of any inconsistency between these Specific Terms and the General Terms, these Specific Terms shall prevail.

Capitalized terms not otherwise defined herein shall have the meaning given to them in the General Terms.

Service description

If you drive a Volvo Cars battery electric vehicle (BEV) or plug-in hybrid electric vehicle (PHEV) (jointly "**EV**"), you may be able to use Volvo Cars' Smart Charging service through the Volvo Cars app.

Smart Charging is a service that controls the time of the day your EV charges to optimise cost and environmental impact by charging when prices and/or demand is low.

You can set some parameters within Smart Charging, for example a minimum charge level, schedule time of departure however for Smart Charging to best operate you should ensure your EV is plugged in and Smart Charging is enabled so that the Smart Charging software has control.

If you need to charge your electric vehicle immediately you can temporarily suspend Smart Charging by pressing the 'charge now' button, and Smart Charging will resume when you either press the 'resume' Smart Charging button or when you begin your next charging session.

You can also switch Smart Charging on or off.

You can use your Volvo Cars app to see the forecasted prices on a day-ahead basis, and an estimated savings amount (calculated retroactively) enabled by Smart Charging. The forecasted prices and estimated savings shown within Smart Charging is based on the information published on Nord Pool, being an hourly spot price. Smart Charging uses this information in combination with Volvo Cars software to determine when charging takes place.

The information and data displayed in Smart Charging is only an indication, and not a perfect reading, of the actual electricity consumed or potential savings provided by using Smart Charging. The amounts shown also do not take into account the price you will actually be charged by your electricity reseller including any taxes or other costs. Smart Charging is provided on an 'as is' basis, with no form of guarantee or warranty to be available on an uninterrupted, secure or fault-free basis, or regarding the quality, accuracy, timeliness, truthfulness, completeness or reliability of any of the information or data. The actual and final amount of any savings will depend on your usage and contract with your electricity reseller and/or grid operator.

Smart Charging can operate with or without any home EV charger (e.g. a wallbox), and at any private charging location.

Smart Charging should not be used if you are using a public charging service.

Smart Charging is only available in certain markets.

Disclaimer and liability

If you have a separate smart charging agreement with your electricity reseller that provides you with a discounted tariff or price for charging your EV, Smart Charging may not be suitable for you, and we recommend you check this before choosing to use Smart Charging.

Volvo Cars uses commercially reasonable efforts to ensure that Smart Charging is available for all eligible users but cannot be held liable in the event Smart Charging is not available, or for any damage or loss incurred by any Primary Driver in connection with the use of Smart Charging (including failure to receive lower prices for charging your EV through a separate tariff from your electricity reseller).

Volvo Cars reserve the right to withdraw or amend these Specific Terms without prior notice at any time, for whatever reason, and without liability for doing so.

If you have any questions regarding Smart Charging, please contact us.
